

ROUTINE

- In this part, we create timetable/Routine. Creation of Routine is done in two formats, one is automatically generate of routine (Generator) which will be explain later and another one is through drag and drop process.
- Select Routine from above menu to open page which shows below.

- Green Colour shows the class which we have selected.
- Now, in the left side column, relation between teacher and subjects are shown, and in between of these numeric value shows the number of available free periods of teachers. 0 means teachers are allotted in classes.
- In the right side column, there are two tables, table at top side define teachers of that particular class on that particular day allotted in different class and sections and on the bottom side, there is a weekly routine format of that particular class which we have select.
- One more hidden table appears only when we click on particular teacher at top side of right column.(Weekly Routine for individual teachers).
